

**SHAWNEETOWN HIGH SCHOOL BASKETBALL QUEEN AND ATTENDANTS** — Miss Carolyn Heath, center, was proclaimed 1956 Basketball Queen of Shawneetown high school Friday night in beautiful coronation ceremonies held in the school gym between the preliminary and varsity basketball games. All members of the varsity basketball team participated in the coronation. Little Miss Mary Ann Druce, sister of player Jack Druce, and Larry Nolen, brother of Co-Captain Jack Nolen, were crown bearer and basketball carrier respectively. The Queen, her attendants and the "little ones" marched the length of the gym to the stage on the royal carpet of orange and black school colors. Queen Carolyn was accompanied to the throne by Co-Captains Alfred Gunzel and Jack Nolen. Following the crowning ceremony the Queen was presented with a basketball. From left to right, Attendants Nannie Stubbs, Roberta Caldwell, Queen Carolyn Heath, Attendants Joan Hise and Letitia Joyner. (Daily Register Staff Photo)

## Powell Urges Quick Write-Offs for New Southern Illinois Industries

**Says Plants Locating in Distressed Areas Should Have Inducements; Cost No More Than Relief**

Rep. Paul Powell (D-Vienna), vigorous exponent of plans to bring new industries to Illinois, has called for action to relieve localized depressions in a part of southern Illinois.

Calling for a "permanent cure" for the economic ills of southern Illinois, Rep. Powell revealed he had asked Illinois' two senators and Rep. Gray (D-Ill.) to consider sponsoring legislation to give quick tax write-offs to industries establishing factories in distressed areas, such as parts of southern Illinois.

**PLEDGE TOLD**  
Powell, who led a fight to earmark sufficient electric power for industrial requirements, told Sen. Douglas (D-Ill.) that the Central Illinois Public Service Co. had placed ads in southern Illinois newspapers pledging sufficient power to meet industrial needs of the area.

Rep. Powell won that pledge from the utility after Olin-Mathieson Chemical Corp. reportedly rejected a site near Cairo, Ill., for a proposed plant because of insufficient power.

Powell, one of the most powerful legislators in the General Assembly, reported his success in winning a pledge for sufficient

## Paschen Attacks 'Do Nothing' Policy for Area

VIENNA, Ill. (U.P.)—Herbert C. Paschen, Democratic organization candidate for governor, Friday said the Republican administration has a "do nothing" policy toward southern Illinois.

Paschen said if he were elected governor he would push for the area works program for the area, to include lakes and reservoirs to relieve drought conditions and assure adequate water supplies for location of new industry.

Paschen said he would work with Democratic Sen. Paul H. Douglas and U. S. Rep. Kenneth Gray (D-West Frankfort) who, he said, are already working to aid southern Illinois.

State Rep. Richard Stengel, candidate for the U. S. Senate, criticized the national GOP administration's farm program for reducing farm income from \$4,301 in 1952 to \$3,800 in 1955 and an estimated \$3,673 in 1956.

Stengel, who took his figures from a magazine (U. S. News and World Report) said the farm situation shows up even worse when compared with non-farm income.

He said that in 1952 net income per non-farm household was 43 percent higher than the average farm household income. In 1955, he said, this difference had climbed to 70 percent.

The Democratic candidates spoke in the hometown of State Rep. Paul Powell who last week became assured of re-election with the withdrawal from the April 10 primary of Johnston City Mayor K. Neil Thurmond.

Thurmond withdrew when the Democratic organization indicated its support would go to Powell by scheduling the Friday rally.

## Rainfall Here 1.59 Inches; Aids Water Situation

Harrisburg today was getting its city water situation well taken care of for the future.

Rainfall for the period 7 a. m. yesterday to 7 a. m. today measured 1.38 inches at the Pankey Branch pumping station. The recording for the previous 24-hour period was .21 inch, making the two-day total here 1.59 inches. At Galatia the figure for the 24 hours ending at 7 a. m. today was 1.33.

With all this precipitation, the three pumps on Middle Fork were sending water into the standby reservoirs. Pumps were started early Wednesday and some of them were in operation continuously except for a short time yesterday.

Then late yesterday water started coming down in enough proportions to start all of them up again.

The creek stage at 8 a. m. today was 17.34 feet, which means that there should be pumping at least into tomorrow.

Lake Harrisburg was full and probably will get fuller, according to reports.

This morning water was coming over the spillway but the water department, to get more water into the big lake, was planning to build up the height of the spillway so that the lake can rise six more inches. This can be done by placing boards in grooves left in the concrete spillway.

## Heavy Rains Follow Storms And Tornadoes

By United Press  
Heavy rains and high winds swept over the eastern half of the nation today in the wake of tornadoes and ice and snow storms.

Cool weather moved into northern and central Texas after the rainstorms moved north to the lower Mississippi and the Ohio valleys. The downpour extended east to the south Atlantic coastal states. Farther north some snow fell near the Great Lakes and in New England.

Three tornadoes ripped through central and north-central Texas Friday, but hit in mostly lightly populated areas. Damage was reported high, but not "disastrous." There were no deaths or injuries.

The U. S. Weather Bureau said it had reports of tornadoes early today at White Rock, Tex., and near Tupelo, Miss., but apparently no damage resulted.

Winds at 60 miles an hour or faster developed with a thunderstorm at Rome, Ga., the weather bureau said. Power lines were knocked down and a barn roof was blown off. Winds at 45 mph early today at Atlanta, Ga., also knocked down power and trolley lines.

Heavy rains in a six-hour period of more than an inch were reported in Arkansas, Tennessee and West Virginia.

**Rain In Arkansas**  
Pine Bluff, Ark., had 1.14 inches, Huntington, W. Va., 1.18 and Nashville, Tenn., 1.24 inches.

In a 24-hour period 2.66 inches of rain deluged Nashville and at Little Rock, Ark., 2.45 inches fell.

## 126 Illinois Traffic Deaths in January

SPRINGFIELD (U.P.)—Traffic accidents killed 126 persons in Illinois in January, a 22 percent drop from the 162 fatalities in the same month last year.

## Soviets Attack One-Man Rule Of Stalin Era

**Denounce Economic, Political Writings Of Late Premier**

MOSCOW (U.P.)—The Soviet Union today condemned before its people and the world the one-man rule of the Josef Stalin era and denounced major political and economic writings of the late premier.

Radio Moscow and all Soviet newspapers, including Pravda, organ of the Communist Party, and Izvestia, the government paper, carried details of the attack on "the cult of the individual" and Stalin's published works on history and economics by First Deputy Premier Anastas Mikoyan.

Mikoyan's condemnation was made Thursday before the 20th Communist Party Congress but was not released publicly until today.

The veteran party leader scored historians, economists, jurists and philosophers of the Stalin era and referred to two victims of the purges of the 30s as "comrades."

Stalin's history of communism came under fire and Stalin's last published work, "Economic Problems of Socialism in the USSR" was denounced as incorrect in the speech.

Mikoyan assailed "the negative and harmful role of certain histories which ascribed 'alleged subversive activities to party leaders many years after the event.'"

Some of those leaders were incorrectly assumed to be enemies of the people, Mikoyan said. Mikoyan demanded a new party textbook which would contain "accurate historical facts."

He said Stalin's history failed to meet that test.

The blistering attack by Mikoyan, a veteran Bolshevik, confirmed the revolutionary transformation in Soviet ideology in domestic and foreign policy which has occurred since Stalin's death.

It was the first public denunciation of Stalin's written works.

Mikoyan echoed the keynote address of Soviet Party Chief Nikita Khrushchev Tuesday in criticism of "the cult of the individual" as opposed to the Lenin principle of "collective leadership."

The veteran Mikoyan, who doubles as trade minister said the cult of the individual "reigned for 20 years" and exerted a "negative influence."

In attacking some of Stalin's written statements, he strongly urged Soviet studies of Western capitalist economies.

## Learn of Death of Mrs. E. F. Hayes, Former Resident

Mrs. Mary Hayes, widow of E. F. "Bonnie" Hayes, and a native of Harrisburg, died on Jan. 25, in Springfield, Ohio. News of her death was contained in a letter from her daughter, Mrs. Josephine Conney, 285 Dover Rd., Springfield, with whom she made her home.

Mrs. Hayes was Miss Mary Choiser, daughter of the late Judge W. V. Choiser of this city and she was a sister of Dr. Roger Choiser, Washington, D. C., and the late Mrs. Nell Reed, and Judge Robert E. Choiser of Harrisburg.

She and her brother, Dr. Choiser, were joint owners of the building housing Rainbow's Rexall drug store at the corner of Locust and Main streets.

## OIL REPORT: Area West and South of Galatia Continues as Tri-State Hot Spot

Taken from the Robertson Tri-State Oil Report  
The area west and south of Galatia continues to be a Tri-State area hot spot.

In 13-8-56 (Galatia township), John Buchanan and E. F. Moran own the Robert C. Tuttle No. 1, a wildcat in N.W. SW NW, that is a mile from other production.

On a one-hour drill stem test in the O'Hara at 2940-51 gassed to the surface in one and a half minutes. It recovered 2,433 feet of clean oil, 30 feet of mud cut oil and no water, with a formation pressure of 825 pounds.

A mile and a half west of this well, Olen D. Sharp was waiting on cable tools to test the Aux Vases line at 2905-22 in his Webb Heirs No. 1, SW NE NW, 15-8-56.

A drill stem test in the Aux Vases line gassed in one and a half minutes and flowed clean oil in 40 minutes with a bottom hole pressure of 1,083 pounds. This well is a half mile from other wells. Well Completed.

In this same general area a good well was completed. It was Phillips Petroleum's Noble No. 1-A, SEC NE NE, 16-8-56. The well was brought in from the Aux Vases, 2882-2903, with initial production 445 barrels of oil per day on flow through a three-eighths inch choke following fracture.

## Ford Increases Prices, Lowers Destination Charge

DETROIT (U.P.)—Ford Motor Co. today announced wholesale price increases ranging from \$16 on Ford passenger cars to \$30 on trucks. At the same time, reductions of from \$49 to \$85 in destination charges to dealers were announced.

The changes go into effect Monday, Feb. 20, the company said. Wholesale price increases to domestic dealers will be \$16 on Ford passenger cars, \$18 on Mercury models, \$21 on Lincoln and \$30 on medium trucks.

Greatest benefits from the new changes in destination charges will go to dealers located more than 1,000 miles from Detroit.

## Arctic Flight Ends Career Of Whitey Dahl

HALIFAX, N. S. (U.P.)—A risky Arctic flight in a war-surplus plane has ended the career of pilot Harold "Whitey" Dahl, one of the last of the thinning group of international soldiers of fortune.

Whitey's luck ran out Tuesday. Rescue parties removed his body Friday from the twisted wreckage of the DC3 which crashed in the frozen wilderness of northern Quebec.

Killed with Dahl was W. Givens of St. Jovite, Que., Eric Pearson, identified only as an American from California and co-owner of the DC3, survived.

Pearson was found wandering dazed and shocked through the wreckage when a ski-equipped Royal Canadian Air Force plane landed to take the bodies and Pearson to Goose Bay, Labrador.

Dahl loved to take a chance and became world famous because of his luck. His swashbuckling career stretched through the Spanish Civil War, the Ethiopian War, service with the Royal Canadian Air Force during World War II, South America and a couple of scrapes with the law.

Dahl, 47, could always be found where there was adventure. He had been working for the past year on the distant Early Warning (DEW) radar line. He worked for the Dorval Air Transport Co.

His most publicized exploit happened during the Spanish Civil War when an American entertainer sent Generalissimo Francisco Franco her picture, said she was Dahl's wife and pleaded for his life.

Dahl, then a loyalist fighter pilot who had been shot down and sentenced to death by a firing squad, got his freedom.

Dahl came to Canada after the Spanish war and married Elizabeth Robin Bone. They had three children.

## Miners' Exams Here March 15

Examination for miners' certificates will be conducted in Harrisburg on March 15 from 9 a. m. to 2 p. m. at the miners hall. Exams also will be conducted in Eldorado on March 14 from 9 a. m. to 2 p. m. at the mine rescue station, it was announced today by Ben H. Schull, director of the Illinois Department of Mines and Minerals.

A well was brought in during the period in Eldorado township. Central Oil Producers' Tucker Community No. 1, 165 feet north at 230 feet east of SW NE SE, 18-8-56, made an oil well in the Palestine at 1947-2000 with initial production 480 barrels per day on flow through a choke.

There was a dry hole in Eldorado township too. Russell W. Waggoner and Raymond R. Bianucci abandoned their H. K. Bramlet et al No. 1, 300 feet south and 390 feet west of NE NW NE, 19-3-56.

Other activity:  
In Tate township C. E. Brehm was testing his Ritchey Community No. 1, NE SE NE; his Williams Community No. 1, NW SE NW; his Shaw No. 2, SE NW SW; his Edna Still-Williams No. 3, SE NE NE; and his Williams et al-Ilinois Central No. 1, SW NE SW, all in Section 30, 7-5-56.

In Harrisburg township, Breuer-Robison awaited cable tools to test the Cypress at 2283-2301 at its Frank P. Parker No. 1, 330 feet north and 260 feet east of SW NW NE, 25-9-56.

In Galatia township, Delwood was testing the Aux Vases at 2886-2909 at its Ryan No. 1, NE SE NE, 16-8-56, and in Brushy, Sun Oil Co. was waiting on cement to set five and a half inch casing through the Aux Vases at its Small Unit No. 1, SE NE NE, 26-3-56.

**IRVIN RETURNED HOME**—Handcuffed and chained to Sheriff Earl Hollen, right, of Gibson County, Indiana, convicted mass-killer Leslie Irvin starts back to Indiana by train from San Francisco where he was picked up after having escaped from a Princeton, Indiana jail. Irvin's trip this time will end in Indiana prison death chamber where he is waiting word on an appeal of his sentence. (NEA Telephoto)

## Army Embargo Jeopardizes Huge U. S. Air Base in Saudi Arabia

WASHINGTON (U.P.)—Saudi Arabia told the United States a year ago the "absolute minimum" price for continued American use of the vital Dhahran air base was the 18 tanks impounded in New York, the United Press learned today.

The present U. S.-Saudi Arabian agreement for use of the Dhahran base expires next June 18.

The big base in the Saudi Arabian desert near the Persian Gulf is within easy striking distance of the Soviet Baku oil fields. It is a vital link in the Strategic Air Command's bulwark against potential aggression.

Officials said the decision to halt shipment of the U. S. tanks to Saudi Arabia not only jeopardizes the air base but also further opens the Middle East door to Soviet arms salesmen.

The dangerous possibilities were disclosed as the administration worked on a "crash basis" to head off a cold war defeat for the West in the Middle East.

There were rumors that the administration soon would lift the embargo to the Middle East. The tanks may be delivered to oil-rich Saudi Arabia and Israel may be given some of the defense arms she has been asking for to counter Communist arms sales to Egypt.

Quick action may come soon after Secretary of State John Foster Dulles returns next Wednesday from an 11-day Caribbean voyage.

## Airliner Flips At Owensboro; None Injured

OWENSBORO, Ky. (U.P.)—Some 21 passengers and three crew members of an Eastern Airlines twin-engine plane that flipped over Friday and crashed while landing said today their seat belts saved their lives.

The Martin Silver Falcon, enroute from Evansville, Ind., to Chicago by way of Louisville, Ky., was coming in for a landing thru a heavy rain and fog.

The pilot was about 50 feet to one side of the runway, according to several passengers, when he tried to pull up to correct his approach. A wing tip scraped the ground, turning the plane over.

No one was hurt except for bruises and shock, although Roy R. Muller, 56, Wheaton, Ill., was taken to the hospital for observation later when he became faint.

Most of the passengers were able to get out unassisted but some were stunned and had to be helped.

"It kind of stunned me," Nat Goodman, Reading, Pa., a passenger, said. "When I came to, everything was upside down. I unfastened my seat belt and fell straight down. I got out the window and helped some others out."

Amputate Leg of Father of Mrs. Lawrence Caluffetti  
Holland Lantrip, Johnston City, father of Mrs. Lawrence Caluffetti of Harrisburg, underwent amputation of his second leg at Herrin hospital Wednesday. Mr. Lantrip, who suffers from diabetes, had the other leg amputated seven years ago. He lost an arm in a mine accident a number of years ago.

## Plane Crashes Into Ridge In California

**Rocky Terrain Had Claimed 85 Lives in Two Previous Disasters**

NILES, Calif. (U.P.)—Thirty-eight Marines were killed Friday when their four-engine transport plane smashed into a mist-shrouded wall of rock near Niles.

A detail of Navy enlisted men stood guard over the charred bodies of the five Marine crewmen and 33 passengers until dawn today.

No attempt to remove the bodies was made earlier because of the rocky terrain in an area which has claimed the lives of 85 other persons in two previous air disasters.

It was also the second military plane disaster in less than a day. The plane, an R5D, was en route from El Toro Marine Base

## BRITISH TROOP PLANE CRASHES; 50 KILLED

VALETTA, Malta (U.P.)—A British troop carrier plane crashed at this Mediterranean island today. First reports said 50 men were killed.

The Britain-bound, four-engine York transport chartered from a Scottish airline smashed to earth on takeoff from the Maltese airfield at Luqa.

The 45 servicemen from Suez and five crewmen aboard the York transport were taking off from this British island base on the homeward leg of a flight to England's Swansted Airfield.

In Southern California to the Alameda Naval Air Station on San Francisco Bay. It was circling in a flight pattern for landing when it rammed the 1,300 foot ridge in southern Alameda County.

**Mist Shrouds Ridge**  
Military authorities at El Toro identified the five crewmen aboard and one passenger who was making the flight to visit parents in San Francisco. The other 32 leathernecks from Camp Pendleton, said the names of the 32 men would be held until notification of next of kin. He said the camp expected to release the names sometime Sunday morning.

The bodies will be taken to Oak Knoll Naval Hospital, Oakland, Calif., for identification.

A heavy pall of drizzling rain and mist blanketed the ridge as the craft plowed into it about 100 feet from the crest.

The crash occurred just after the pilot, Maj. Alexander Watson, 32, of Santa Ana, Calif., radioed the CAA tower he was making his approach to Alameda.

The CAA said the plane was six miles off its course when it crashed.

The terrain in the area was so rugged that it took more than an hour for the first person to arrive at the scene.

George King, 61, a nearby farmer, was the first person to reach the wreckage. He said he heard the plane flying over. "Just too darn low," and then heard a tremendous explosion.

"It took me about an hour to get up there," he said. "It's only about a mile, but it seems like five, what with the steepness and mud and brush and all."

King said it was obvious from the moment he got there that all aboard were dead. Wreckage and bodies were scattered over a 300-yard area. All the bodies were badly charred.

Only the tail assembly was intact, but its aluminum covering was peeled back from the skeleton of the inside struts.

It was the second major plane accident in Northern California in less than 24 hours. Late Thursday an air force B52 jet bomber exploded in flight near Tracy, killing four of the eight men aboard.

The Niles area is the same in which a United Air Lines DC8B crashed in 1951, killing 44 passengers and a crew of six. Two years later, a Transocean Air Lines transport crashed near Hayward, about 15 miles from Niles, and killed 30 Air Force men and five civilians.

Vandemark, University of Illinois professor of dairy cattle physiology who appeared on the program. (SIU News Photo)

## Value of Livestock, Poultry on Farms in U. S. Totals \$10.7 Billion

WASHINGTON (AP)—The Agriculture Department said today the value of livestock and poultry on U. S. farms and ranches on Jan. 1 was \$10,757,612,000, down 4 per cent from a year ago.

The number of livestock and poultry showed a net increase of 2 per cent during 1955. The aggregate increase resulted from a sub-

stantial boost in hogs and a small increase in cattle. Sheep, horses, mules, chickens, and turkeys were down from a year ago.

There were a record 97,465,000 head of cattle as of Jan. 1, compared with 96,592,000 head a year ago. Hogs numbered 55,083,000 head against 50,474,000 head a year earlier. Sheep dropped from 31,582,000 on Jan. 1, 1955, to 31,109,000 on Jan. 1, 1956. The horse and mule population on Jan. 1 was 3,962,000 head, against 4,309,000 a year earlier.

The chicken total was down 2 per cent and turkeys down 1 per cent from a year ago.

Hogs accounted for the largest decrease in value. Sheep showed a slight decline. The value of cattle, horses, mules, chickens, and turkeys was above a year ago.

The total value of cattle was \$3,587,370,000. The hog value on Jan. 1 was \$1,542,285,000. The total of all hogs on Jan. 1 was 37 per cent lower than the value of hogs a year earlier.

The average value per head of cattle on Jan. 1, was \$38, for hogs \$17.70; horses and mules \$62.60. The total value of livestock and poultry on Jan. 1 was 7 per cent below the peak \$13,437,522,000 on Jan. 1, 1944.

## Wheat Under Loan Must Meet Sanitation Rules

Farmers who have farm-stored wheat from the 1955 crop under price support are responsible for maintaining the quality and quantity of the wheat placed under loan, according to Herman Driskell, chairman of the Saline County Agricultural Stabilization and Conservation committee.

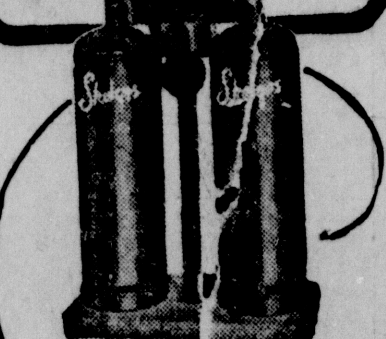

He reminds farmers particularly that wheat put under loan since last July 1 must meet the sanitation standards of the Food and Drug Administration. At the time the loan was made by the Commodity Credit Corporation the wheat was examined to be sure the sanitation standards were met. If the loan is not repaid by the maturity date and the CCC accepts the wheat to satisfy the loan, the grain must meet the same sanitary standards.

Even when grain is stored in a good bin there is still danger of insect infestation. Mr. Driskell, therefore, recommends frequent inspection and prompt fumigation of the grain if evidence of insect infestation appears. According to the ASC chairman the only way to be sure your farm-stored wheat under loan will be of as good quality in the spring as it was in the fall is to keep the bin tight and weather-proof, to poison rodents in the bin area, and to fumigate at the first sign of insect infestation.

You can harvest lumber from your farm woodland every year and still keep the same amount of timber while improving the stand if you cut out the annual growth as estimated by a farm forester.

## This Week at DIXON SPRINGS

University of Illinois Experiment Station

(A round-up of the week's work, activities, and observations at the University of Illinois Dixon Springs Experiment Station near Robbs in southern Illinois, prepared by the Station staff.)

### Lambing Party

On Monday night, Feb. 6, the new Station dormitory was initiated, not by a slumber party, but by 60 wide awake, fully conscious, energetic sheep producers from Pope-Hardin, Johnson and Massac counties who met for a lambing party.

In the meeting hall of the new building, Walt Fenley, of the Ohio Producers Marketing Association, discussed the operation of lamb marketing pools. Fenley stated that lamb marketing programs to be successful must be coupled with good production programs. He said that in Ohio local sheep improvement committees were the backbone of and necessary to lamb pools. Bob Webb, Station superintendent, stated that as an extension and education activity, the facilities of the Station could be made available for a local lamb marketing pool.

Curt Taylor, Pope-Hardin farm adviser who was program wheel for the lambing sheds where Jack Lewis, Doc Mansfield and Norris Phelps, all Station staff members, showed the group good feeding and management as practiced on the Station. Norris demonstrated and allowed the visitors to practice several ways of docking, castrating and feeding new lambs. Doc discussed flock health.

An uninformative and too-commonly held opinion is that sheep are

### Farm Teeners Don't Approve of Drinking

UNIVERSITY PARK, Pa. (AP)—Pennsylvania's farm teen-agers frown on social drinking and advocate regular church attendance.

A survey conducted by rural sociologists at Pennsylvania State University also showed the young-sters approve dancing, smoking and loafing.

A poll of some 2,800 boys and girls, sophomores in rural Pennsylvania high schools, showed more than three-quarters of the group disapproved of drinking alcoholic beverages.

Some 60 per cent felt going to church was necessary "in order to be a good community leader," but slightly more than half could see nothing wrong with working on the Sabbath.

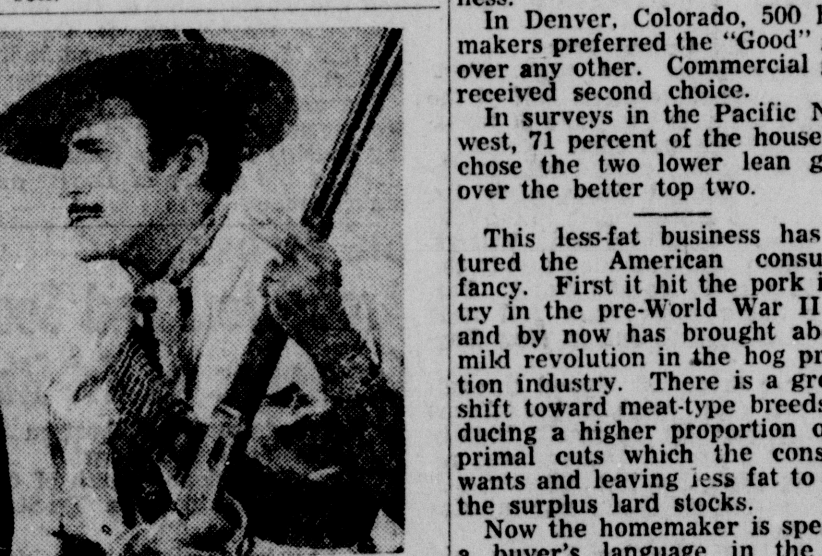

Card playing was okayed by 45 per cent of the youngsters, and 55 per cent gave their approval to "loafing up town." Smoking was approved by 54 per cent. Dancing won the support of 87 per cent.

A majority of the high school sophomores approved divorce in cases where the couple could no longer remain happily married.

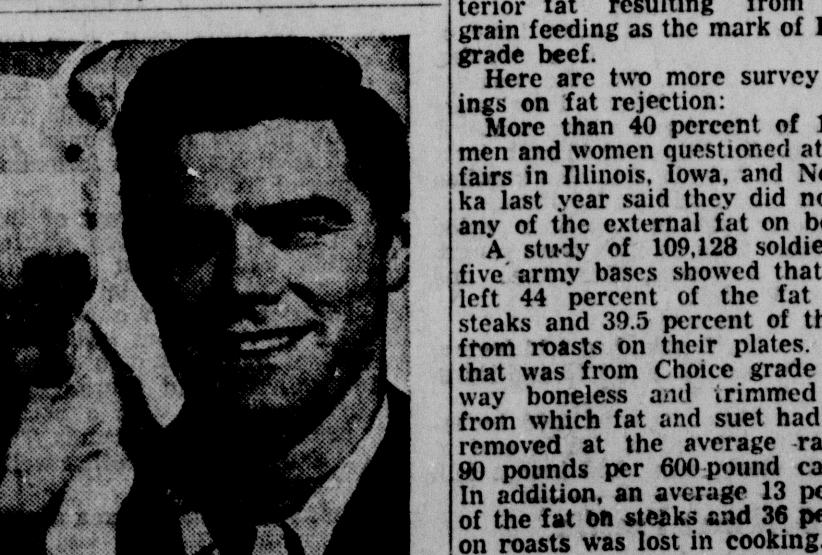

Makeup for girls won the approval of 63 per cent of the group. But, surprisingly, only 36 per cent of the teen-agers thought students should be allowed to spend their own money as they see fit.

In 1900 the average American family spent 80 per cent of its income on necessities such as food, clothing and shelter. Today we spend less than 60 per cent of our income on such needs.

The American Meat Institute estimates hamburger and other ground beef, used 2,270,000,000 pounds of the total beef produced in the United States in 1955. That's almost 14 pounds per person.

Rory Calhoun and Gilbert Roland are ready for battle in this scene from RKO's "The Treasure of Pancho Villa." In Technicolor, to show at the Orpheum Sunday, Monday and Tuesday.

Jarma Lewis and Jeff Richards share the spotlight with "Wildfire" in MGM's "It's A Dog's Life," in CinemaScope and Color, to show at the Grand Sunday and Monday.

## Ag Sponsors Swine Improvement Project

URBANA—Selecting high-quality brood sows and boars is the first step toward better pork.

To support this idea, livestock extension specialists at the University of Illinois College of Agriculture are promoting a project of swine production and carcass testing for Illinois swine producers.

In announcing this on-the-farm selection program, specialists H. G. Russell, G. R. Carlisle and D. E. Walker predict that the result will be swine that have high brood-sow productivity, gain faster on less feed and have a high carcass value.

Producers who want to take part in the project need to ear-notch and record the birth dates of pigs in their good litters at farrowing time, the specialists say. Purebred breeders should follow the production registry and certification program outlined by their breed associations.

Market hog producers should follow the sow-testing program recommended by the Illinois Swine Herd Improvement Association. Acceptable standards are the all-breed P. R. requirements of an 8-pig 320-pound sow litter and an 8-pig 275-pound gilt litter at eight weeks of age.

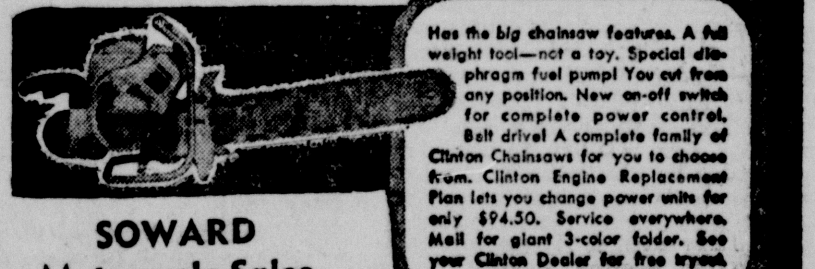

To find rate and efficiency of gain, you'll need to weigh your pigs when they are between 160 and 200 days old. An acceptable weight standard is 200 pounds at 180 days, or higher with good feeding and management.

Acceptable standards for carcass value are 1.3 inches of back fat or less for a 200-pound boar and 1.5 inches or less for a 200-

A University of Illinois veterinarian says that a new vaccine to protect persons exposed to rabies has been developed, although it is not in general use at present.

## Soviets Boast Of Power to Bomb U.S. Cities

### Hint of Globe- Circling Rockets; Say Deterrent to War

MOSCOW (AP) — A top Soviet official said today the Soviet Union has the means to deliver and drop the hydrogen bomb on American cities and hinted at globe-circling rockets.

First Deputy Premier Anastas I. Mikoyan, in a speech to the 20th Communist Party Congress now in session made public today, warned:

"In the event of American aggression, hydrogen bombs can be returned fall on American cities, too. Nor will the American imperialists be able to hide from these bombs. They will not be able to hide their factories."

"This time," Mikoyan said, "war will very definitely not be a source of enrichment for them. As a result, they will suffer only destruction and annihilation."

The veteran Soviet leader hinted that Russia already may have an intercontinental missile capable of carrying atomic and hydrogen warheads.

He said war was not inevitable, with one of the deterrents being the fact that both East and West have hydrogen and atomic bombs.

Wamongers, he said, "are restrained, apart from public opinion, apart from the great military strength of the countries of socialism, by another new important circumstance. It is the appearance of atomic and hydrogen bombs not only in America but also in the Soviet Union, as well as the means to carry these bombs to any point of the globe by aircraft or rockets."

Mikoyan then added: "We believe that if anyone attempts to drop a hydrogen or atomic bomb, the best people of mankind will not allow civilization to perish."

"They will immediately unite, will put the aggressors into straits, and will put an end to all wars and to capitalism at the same time."

## Icepack Menaces Hydroelectric Plant on Danube

LONDON (AP) — U. S. Army engineers and artillerymen stood by today to blast a huge ice pack threatening an important hydroelectric project on the Danube River.

The menacing icepack was only one of the jams harassing riverside communities along the Danube, Rhine and other major European waterways as the worst cold wave of the century moved into its 18th day without sign of a letup.

The Europe-wide death toll mounted to 860, with 13 new deaths reported in the past 12 hours. Damage to crops and properties were estimated in the millions of dollars.

An Austro-German emergency Commission asked the U. S. Army Friday to be ready to spray the ice jam with flaming napalm and high-explosive artillery fire before it reached the Jochenstein hydroelectric plant. The plant provides large areas of Germany and Austria with power and light.

### Powell Urges Write-Off For New Industries

(Continued from Page One)

"In my opinion, if plants posing new facilities were given a quick depreciation write-off for tax purposes on their investment, it would likely be an inducement for them to go to distressed areas in southern Illinois and elsewhere."

"They would operate on a permanent basis, would give employment to the surplus labor which is going elsewhere at a sacrifice, and the improvement would be permanent, not just a 'shot in the arm' for temporary relief with no bright outlook for the future."

"If necessary, the industries might even be subsidized, where the government would give some assistance in construction of new projects. With quick depreciation write-offs and even some subsidy, in the long run it would not be as expensive as the cost of direct relief and surplus commodities and other forms of assistance which cover a long period."

"As you well know, southern Illinois and other distressed areas have natural resources which are important to the nation in time of emergencies and should be developed so they will be available when needed, and meanwhile, they will furnish steady employment and relieve the distressed conditions during the present unemployment situation."

"I sincerely hope some of these suggestions may be of assistance in alleviating the unemployment problem in southern Illinois and that industries can be encouraged to locate there."

"Sincerely Yours,  
REP. PAUL POWELL"

### Jet Crashes in Muddy Field; Two Believed Dead

TOWER HILL, Ill. (AP) — An unidentified jet airplane crashed in a muddy field near here late Friday, and the Shelby County sheriff's office said it was believed two men died in the accident.

The sheriff's office said crews from Scott Air Force Base were guarding the wreckage. Neither the plane nor the men believed dead were identified.

Officials at the scene said parts of at least one body had been found in the wreckage which was strewn over a 500-foot square area. The plane plowed into a rain-soaked field on a farm operated by Elsie Wiery.

Several persons reported hearing the plane and a "thud" when it crashed. Mrs. Albert Benson said she saw a red flash over the treeline after the plane crashed.

State police said the plane appeared to have been heading north when it crashed.

A three-story, seven-room house at Long Beach, Cal., is only 10 feet wide.

heaviest since March 1954, he said. One of the January deaths was caused by a coal fall in a Christian county mine that occurred last November. Three of the other fatalities were the result of coal falls in Christian, Macoupin and Williamson counties. The fifth death was caused by a haulage accident in a Perry county mine.

State of Illinois, County of Saline, ss.  
In the Circuit Court of Saline County, Illinois.

Kenneth E. McCoy, Mrs. Emery McCoy, d/b/a E. E. McCoy and Sons, Plaintiff, vs. Huntington Industries Incorporated, a corporation, Defendant.

Law No. 561-20.

Public notice is hereby given to the said Huntington Industries Incorporated, a corporation, that a Writ of Attachment issued out of the office of the Clerk of the Circuit Court in Saline County, Illinois, dated the 10th day of February, 1956, at the suit of Kenneth E. McCoy and Mrs. Emery McCoy, d/b/a E. E. McCoy and Sons against Huntington Industries Incorporated, a corporation, directed to the Sheriff of Saline County, Illinois, which said writ has been returned executed.

Now, Therefore, unless you, Huntington Industries Incorporated, a corporation, shall personally be and appear before the Circuit Court of Saline County, Illinois, on or before the 12th day of March, A. D. 1956, at the courthouse in the city of Harrisburg, Illinois, and give special bail and plead to the plaintiff's action against you and in favor of said plaintiffs and so much of the property attached as may be sufficient to satisfy the judgment and costs will be sold to satisfy the same.

Dated this 10th day of February, 1956.

### In Loving Memory

In loving memory of our dear husband and father, Matthew Yuhas, who departed this life two years ago on the date, gentle Lord, You opened the door, gentle Lord, And let my old Dad come in. He was too tired to lift the latch, You opened the door and let him in.

You set him a place at thy table, Lord.  
He loves a bit of cheer.  
To his old stories often told,  
Lend thou a willing ear.

You made him a bed where purple  
down  
Touched his resting face,  
You'll find him early up, dear  
Lord.

A gardening around your place,  
Sadly missed by his wife, daughters  
and families. \*197-1

Evening service 7.  
Prayer meeting Wednesday 7 p. m.

**PAL AND POOCHIE**

They belong to a little girl. And she loves them both. But, although she is only a tot, she understands the difference between Pal and Poochie.

Poochie is just her "doggie dollie." She can talk to him, and pat him, and cuddle him at night in her crib. But she has to pretend that he loves her too!

Pal is her "bow-wow." He answers words and caresses with his eyes and his bark and his wagging tail. He follows her, he snuggles up to her. His love is just as real as his funny cold nose.

Poochie will one day retire to the attic. But Pal will be her pal for all of his faithful life. Brings home, does it not, the importance of responding to love?

The Love which inspires man's faithfulness is God's love. The Response is our Christian worship and life.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalms	84	1-12
Monday	Psalms	100	1-5
Tuesday	Joel	2	1-13
Wednesday	Joel	3	14-21
Thursday	Mark	10	23-31
Friday	John	12	20-36
Saturday	I Corinthians	12	1-13

## Sunday School Lesson

By Dr. Archie E. Brown  
Pastor First Baptist Church  
Vandalia, Ill.

### "Jesus Demands A Choice"

**LUKE 15:1-10**  
**GOLDEN TEXT:** "Choose you this day whom ye will serve... but as for me and my house, we will serve the Lord. (Joshua 24:15)

**INTRODUCTION** — It is one thing to know about Christ, and quite another thing to know Christ. It is one thing to think maybe you are saved, and it is quite another thing to know, without a doubt, that you are saved. It is a good thing to talk about Christ and to seek more knowledge concerning His life. However, the very best thing in all this life is to come into actual contact with Him.

Every living human being has a heart to deal with. He is here to live today! He reigns in the hearts of his followers by the power of the Holy Spirit. He does so because His followers have made a choice. No person will ever know Jesus Christ in all his saving power, unless they choose to know Him. He never batters the door of a person's heart down to entrance. He knocks and waits ever so gently, but He waits for the individual to choose to let Him in.

### ZACCHAEUS WAS RICH (vv. 1-2)

Zacchaeus was hated by his own people. He had purchased from the Roman government the right to tax his own people in a given territory. (Just as if you could say the President of the United States for the right to tax the people who live in your city.) No wonder they hated him! He had often taken his wealth by extortion and was cheating his own neighbors. Let it be said here that there is nothing sinful in earning money, if it is gained honestly. God has blessed some folk with the talent to earn much wealth. Money only becomes sinful when it becomes the master of the individual. As long as the individual can master the money, and use it according to God's will, no harm is done.

In this Scripture we see a man who is lonely, friendless and wealthy. He is terribly dissatisfied.

### II HE SEEKS JESUS (vv. 3, 4)

Jesus was in the city. Zacchaeus heard about it and sought Jesus. He saw Jesus coming down the street surrounded by a crowd of people. Zacchaeus was a little, short man, and he could not see over the shoulders of the others. He did not let the crowd, nor his circumstances keep him from seeking Jesus. He ran and climbed up into a Sycamore tree; so that he could look down on Jesus when He passed under the tree.

Some folks today let crowds, or circumstances keep them away from Jesus. Do you? No crowds, nor any circumstance is that important!

### III JESUS KNEW HIM (vv. 5, 6)

Lo! and behold, when Jesus got right under that tree, "He looked up, and saw him, and said unto him, Zacchaeus, make haste and come down; for today I must abide at thy house." I can just almost see the little, penny-pinching, cheating, tax-collector. Look at the surprise written all over his face. How did Jesus know his name?

Friend, the truth of the matter is that Jesus not only knows your name, but He knows all about you. In spite of all that He knows about you, however, He loves you and wants you to choose Him for your Master.

### IV THE CROWD COMPLAINED (v. 7)

This is not the last time that this has happened. Let some down-and-out, or up-and-out sinner come to Jesus today; and there will be those who will "murmur," or complain. When Zacchaeus (he was up-and-out) chose Jesus as his Savior that day, some of those people in that crowd "looked down their long noses," and said: "that Jesus was gone to be a guest with a man that was a sinner."

**CONCLUSION** (vv. 8-10) We know that Zacchaeus was truly saved, because "he made haste and came down." He also, offered to "give half his goods to the poor and to restore four times as much as he had taken by false accusation to any person." He was sincere in choosing Jesus, else he never would have done this.

Jesus hit that murmuring crowd where it did the most good when he said to them: "The Son of man is come to seek and to save that which was lost." He is still in that same business today. He seeks you now. Will you choose Him?

### Mt. Pleasant Baptist

W. H. Hughes, pastor  
Sunday school 9:30 a. m. Frank Williams, supt.  
Morning worship 10:45.  
Evening worship 7.  
Monday Junior choir rehearsal 6 p. m.; Mary Smith circle meets with Mrs. Essie Fields at 1 p. m.

# Bul Dogs Lose to Herrin Tigers, 84-52

## Locals Bothered by Opponents' Press; Play Eldorado Here Tonight

The Harrisburg Bull Dogs, who started like they were going to make a respectable game of it, got killed off by a second quarter press and bowed to the Tigers at Herrin last night, 84 to 52, in a South Seven conference basketball game.

Tonight Harrisburg will be the site of Eldorado's "home" basketball game and Herrin will tackle Mt. Vernon at Herrin for the lead in the South Seven race. Mt. Vernon's first straggler guard, Irwin, suffered a broken finger this week.

Eldorado and Harrisburg have split two games this year and this will be the "rubber" game of the season although the two will meet in the first round of the McLeansboro regional meet. Feb. 28.

**Tigers Start Press**

At Herrin last night Harrisburg started its deliberate play and the first quarter was even-up at 8-8 with a minute and 45 seconds to go. Herrin then made three points to lead 11 to 8.

## Gil Turner to Protest Loss To Gene Fulmer

NEW YORK (AP)—Gil Turner's manager, George Katz, planned an official protest today against the Philadelphia middleweight's defeat by a single-point, split decision in Friday night's thundering third round brawl with Gene Fulmer of West Jordan, Utah, at Madison Square Garden.

Fulmer, sixth-ranking contender and the 2-1 favorite, won the single-point victory by his strong finish in the 10th round.

Fulmer's headlong attack gave him the first two rounds of the see-saw fight, but Turner's combination hooking assault on body and head appeared to win the third and fourth. Fulmer set Gil back on his heels in the fifth with a solid left hook for a slight edge. But Turner's body-head bursts, plus the terrific pace, had Gene fighting sloppily in the sixth, seventh and eighth. Then the brashy Utah mining machinist seemed to catch his "second wind" for he took the ninth and 10th.

Gene outweighted Turner, 157½ pounds to 151 1-2.

## Nashua Favored To Win \$129,880 Widener Handicap

MIAMI, Fla. (AP)—Nashua's new owners were expected to pick up their first dividend today when the champion colt makes his 1956 debut in the \$129,880 Widener Handicap at Hialeah Park.

Purchased for a record \$1,251,200 by a syndicate headed by Leslie Combs II last December, the husky son of Nasrullah ruled a 1-4-2 favorite for the mile and one-quarter classic, which will be televised and broadcast nationally by NBC. Post time is 5:15 p. m. EST.

Named to oppose Nashua were the Alfred G. Vanderbilt entry of Social Outcast and Find, Hasty House Farm's Tandem of Sea O Erin and Prince Noor, Brookmeade Stable's Sailor, Mrs. Ethel D. Jacobs' Man of Destiny, Spring Hill Farm's Jamie K and El Chama, an invader from Venezuela.

Eddie Arcaro flew in from California to ride Nashua, who will pack top weight of 127 pounds.

INSURANCE AGENCY

In the second quarter Harrisburg closed the gap and went ahead, 33-12. At that point Herrin Coach Leodio Cabutti took out big Ted Green, 6-6 center who was not effective and who had three fouls on himself, too, and started a press.

Harrisburg did not seem to know what to do and the Herrin lead mounted until the Tigers led by 14 points, 36-22, at halftime. Herrin outscored Harrisburg, 25-14, in this period. For the half, Herrin made but one more field goal than Harrisburg, the count being nine to eight.

Herrin continued the press the first half of the third quarter and Harrisburg was not bothered too much, staying right with the Tigers, but the damage was done. Then big Green was reinserted into the game midway in the period and the Tigers went back to conventional play. They led 59-38 at the end of the third period.

**Bull Pups Lose, 58-23**

High scorer of the game was Herrin's 6-3 Ivan Jefferson, who made 23 points. He made all 13 of his free throw attempts.

For Harrisburg, Wayne Stone, with 16 points, was high.

In the preliminary, Herrin beat the Bull Pups, 58-28. The locals were behind 23-16 at halftime but could make but two points the third quarter while Herrin was making 19 and trailed at the end of this frame, 42-18. For Harrisburg, Donald Biggs had 12 points, Bill Yates 5, Eddie Price 3, Donnie Pickford, Phillip Kane and A. J. Bryant 2 each and Ronnie Rauh and Ron Maynard 1 each. Rauh and Heffer also saw action.

Washington 46, Idaho 34.

By BILL MELTON

There is going to be a lot of baseball caps worn in the United States this year—or there will be a tremendous surplus. Because thousands of baseball caps are being made.

Just a day or so ago I made a short walk to the Harrisburg Manufacturing company, located on the second and third floors of the Cummins building, across the street from the post office.

After talking a short time with Richard Ford, manager, in his office I asked "Are you making any baseball caps at this time?"

Seems that the plant is right in the midst of the ball cap season and a tour of the plant showed approximately 120 people busy in the various phases of making baseball caps.

The entire operation is accomplished right here in our city. Saw bolts of material turned into ready-to-wear baseball caps. And the finished product is really high class merchandise.

The cutting department is on the second floor. While there the cutter was working on blue wool materials. Don't know how wide or long the cloth was, but it was 48 pieces in depth and the cutter went right through all 48 thicknesses in a hurry. The cutter dies are the shape of one section of a ball cap. If I remember correctly there are six sections to each cap.

After the cutting, the sections are then sorted and tied together and the front sections are decorated with insignias of various types. There are white NY, for the Yankees, orange NY, for the Giants, STL for the Cardinals, wine colored C for the Cubs, SOX for the Chicago White Sox and so on. Caps for all sixteen major league clubs are manufactured. Also there are caps for two of the high minor league clubs—Los Angeles and Hollywood of the Pacific Coast league. A Little League cap is also made and then there are many caps without insignia. Guess they are for guys that just like to wear a baseball cap, but have no favorite.

And then there are caps that are never seen in organized baseball—caps like Jacob's coat, many colors. Mr. Ford said "Guess these wouldn't exactly be called baseball caps—they might be classified as summer merchandise." They were shaped like baseball caps, but strictly novelty items.

The caps with insignia of teams in organized baseball are not made for the players of these teams, but are for sale to fans. They are the caps you see sold by "hawkers" near the stadiums, at the concession stands inside the parks and at retail stores across the nation. Mr. Ford explained that the players' caps are made by the same firms that make the uniforms. But I bet the Harrisburg-made product is just as good as those from other sources.

After leaving the cutting department, I trailed along behind Mr. Ford and listened as he pointed out the various phases of cap making. Saw the glue-backed insignias applied to the caps by hot irons, saw the buttons covered and clamped to the peak of the caps, but even before that saw other things.

The sections are sewed together in one part of the plant—visors are made in another—the caps are sized in still another and some of the women do nothing but sew in the women's hands. Finally, after going through many hands, the cap is completed and ready for inspection. If it passes inspection it then goes to the blocking department, where it is given the steam treatment to take out all wrinkles. Then the caps are packed and shipped.

Mr. Ford stated the average daily output was 300 dozen caps. That is 3,600 caps. The plant works five and sometimes 5 1-2 days a week. They have been making baseball caps about three or four months and have another month to go. That adds up to lots of caps.

There should be enough caps for every baseball fan in the country—big and little—to wear a Harrisburg manufactured product this summer.

Won't be long until the plant starts making winter headwear. The workers are always making.

## Edwardsville Whips Collinsville; Shawneetown Wins 26th; Moline Loses

By United Press

Galesburg gained revenge against Moline, Edwardsville again whipped Collinsville and the Suburban League was well-scrubbed after a topsy-turvy night of Illinois high school basketball.

Shawneetown, the Cinderella team from the banks of the Ohio, completed its second straight perfect regular season with a 26-0 record. The Indians made it a big one, overwhelming Galatia 101-45.

Moline, which tonight has to tackle the tough Quincy Blue Devils, fell to the Silver Streaks 59-53. It was the fifth setback for the Maroons who were ranked fourth in the state, and the 18th victory for Galesburg, ranked sixth.

Edwardsville justified its 10th ranked spot in beating 12th rated Collinsville 54-47 in the Southwestern Conference feature. The Tigers had also taken the Kahoks 83-74 on Jan. 13. Both quintets have lost five games this season.

**Maine Surprises LaGrange**

In the suburban leagues, Maywood Proviso was cut down by Highland Park 50-46, Winnetka New Trier took the measure of Oak Park 74-69, and Evanston needed a double overtime to conquer Waukegan 42-40.

Des Plaines Maine surprised LaGrange 98-72, and Hinsdale reversed an earlier result by whipping Glenbard 70-64. In the South Suburban Conference, Chicago Heights Bloom and Harvey Thornton remained deadlocked for the lead. Bloom stopped Leyden 68-61, and Thornton smashed Argo 76-45.

East Moline gave Quad-City basketball another upset by edging Rock Island 34-33. Rock Island was ranked in a tie for seventh place in the state. It was the Rocks' sixth loss.

The 1955 state champion, Rockford West, breezed by Freeport

88-66. La Salle-Peru took the measure of Rockford East 69-68 in a Big Eight Conference thriller.

**Elgin Back on Track**

Elgin hit the comeback trail after successive losses to Aurora East and La Salle-Peru by rolling over Joliet 75-60.

Peoria Central kept ahead of Lincoln in the Big 12 Conference with a 71-58 triumph over Pekin. The Railsplitters were winning 57-48 from Springfield. Peoria Manual was impressive in cuffing Streator 54-45.

In other south-west area action, classic little O'Fallon added Lebanon to its victims 69-63. Dupu ran up a 102-66 score over Waterloo. Alton trounced a good Belleville club 65-56.

Danville Schlarman gained its third victory over a Chicago team by taking Wells 72-66. Paris, another eastern Illinois threat, overpowered Vandalia 90-45. Robinson upset Cumberland, handing the boys from Toledo their third loss of the entire campaign 64-61.

Effingham St. Anthony added victory No. 22 by a lopsided 97-60 rout of Newton. Peru St. Bede chalked up another triumph 88-68 against Woodland.

In southern Illinois, Herrin and Pinckneyville added victories, Herrin waltzing past Harrisburg 84-52, and the Panthers toying with Du Quoin 61-38. Centralia took the measure of Benton 84-66.

Elgin 75, Joliet 60.

Elgin 75, Joliet 60.

## Shawneetown Completes Unbeaten Season; Rosiclare, Vienna Win

Three Greater Egyptian conference games were played Friday night with Shawneetown, Vienna and Rosiclare the winners.

Highlight of the night's action was Shawneetown's 26th consecutive victory of the season, including 14 GEC wins. This marked the second straight year the Galatin county school went through a regular schedule unbeaten.

Shawneetown won from Galatia 101-45, Vienna beat Equality 62-43 and Rosiclare defeated Pope Co. 76-63.

Seven of the all-conquering Indians were playing their final game on their home floor and the team gave the fans something to remember.

Playing a fine game in all departments, the jumping Indians were outstanding in rebounding and tip-ins, scoring many baskets via the tip-in route and controlling both boards most of the game.

**Ties School Scoring Mark**

In the late stages of the game, with the century mark in sight, the boys threw defense to the wind and played strictly a scoring game. The honor of scoring the basket that made the score read a 100 went to Hobart Ellis. Jack Drake made a free throw to push the total to 101.

It is said this tied a school record that had stood for several years.
